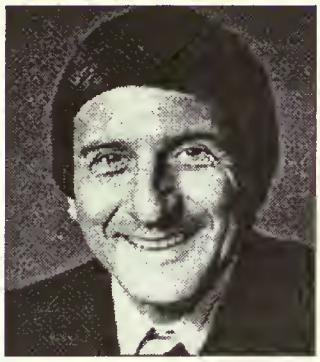
ANOTHER MAY BEGIN.
LIFE IS FRUITFUL IN
CHANGE

T.F. MOHAN C.S.B.

A MESSAGE FROM THE PRESIDENT



John U. Bonvivere

It gives me great pleasure and honour to serve as president of your Alumni Association. I would like to extend on your behalf my appreciation and gratitude to the executive members of our association that give endless time, energy and sincere devotedness to the spirit of St. Michael's in their faithful participation and cooperation in all requests made of them throughout the year.

Many of you participated in our calender of events over the past year - the upcoming Turkey Roll in December, the Car Draw, Dinner and Silent Auction and naturally the 18th Annual Golf Tournament held this past June 21, 1994. Thank you for your support.

The attendance at these functions is steadily growing, however, one could honestly say that it is truly the hard core supporters primarily who continually come out and support each function. We send our mailers to all Alumnae, but only experience less than 5% attendance for any major event. Please tell us if and where we are failing to meet the expectations required of a strong Alumnus at St. Michael's.

As you are aware, St. Michael's has embarked on a major Building Fund Campaign. St. Michael's must begin now to prepare the school for the next one hundred years. Yes, the school is definitely staying where it is and we will be retaining our roots at Bathurst and St. Clair. St. Michael's must consider the renovation of the building as it plans its program for the next century. This is required to better serve the new wave of students and our future Catholic leaders of tomorrow in this "Super-Highway" era of technology we now find ourselves in.

We have all been approached to be part of this four-year commitment to pledge funds to the St. Michael's College High School Building Fund. To date, many of you have been very generous in your pledges and support. Some have indicated their inability to participate at this time due to financial or other valid reasons. However, many others have not indicated their support as yet. I firmly believe we are collectively not giving to our individual ability as demonstrated by a mere $50,000 donated with pledges totalling $100,000 to-date. This is from an Alumnae Pool of 5,000 members. St. Michael's and the Basilican Fathers significantly patterned our lives to help us attain the meaningful and prosperous positions many of us now find ourselves in. Gentlemen, now is the time for pay back! Do we not want the same Bonitatem, Disciplinam et Scientiam for our progeny that we received?

Father Thomas F. Mohan C.S.B., our Principal, has brought a new vision and dynamic leadership to St. Michael's at a most fitting time in our history. I exhort you to get behind Father and his Building Fund Committee and participate either financially or in whatever role is asked of you in the years to come. More than ever before, St. Michael's needs your support. Don't fail them now! Thank you.

John U. Bonvivere,
President

FROM THE PRINCIPAL'S DESK
ST. MICHAEL'S COLLEGE SCHOOL - THE CATHOLIC CHURCH

Rev. T.F. Mohan, C.S.B.

St. Michael's College School confidently comes together each morning as a community of people dedicated to the education of the young and motivated by the fact that God exists and He is our Abba, our Father. We understand that Jesus Christ, the second person of the Trinity, founded our Church community with His own person. That the same person exists among us as he said he would.

St. Michael's is dedicated to the presence of Jesus Christ among us and to the continual task of recognizing God the father as the Creator of all we touch and teach. We respect His revelation in Scripture and in the traditions of the Catholic Church,

Our special education task was restated by John Paul II in his encyclical, Rich in Mercy.

> "No matter how strong the resistance of
> human history may be, no matter how marked
> Church's closeness to that mystery which
> hidden for centuries in God, was then
> truly shared with man, in time, through Jesus
> Christ." Joannes Paulus II, Dives in Misericordia.

God, our Father is the author of all life. Everything and every person is intimately dependent on Him for existence. The whole of creation lives and exists within the mineral, vegetable, animal and rational natures which He has created. No matter what we touch or use, it is the product of His will. He gave humans a special place in creation. Humans share in all the created natures of the world. They share characteristics of mineral, vegetable and animal. Their bodies are composed partly of minerals. Like the vegetable world they are able to grow; like the animal world they have a body which is able to react sensually. However, humans are also made in the image and the likeness of the Creator: they are able to know and choose the good.

God is the Creator and the Father of all creation. He is the first and the greatest good. Goodness is the first pursuit of St. Michael's.

"TEACH ME GOODNESS, DISCIPLINE AND KNOWLEDGE."

REMEMBER
ST. MICHAEL'S COLLEGE SCHOOL
IN YOUR WILL

As an Alumnus, why not consider leaving a donation to St. Michael's College School in your will? We are the only private Catholic Boys' High School in Ontario and we are constantly looking for funds to improve the facilities and the quality of education that we provide to our students. We need your support. Why not remember your school?

ST. MICHAEL'S ALUMNI ASSOCIATION
YOUR DONATIONS CAN MAKE A DIFFERENCE

Over the years, our Alumni members have been very generous in donating to our Scholarship & Bursary Programs and supporting other fundraising events held here at St. Michael's. No matter what you donate ($25 or $1,000) your contribution can help make a difference in the sponsorship of a needy student or the enhancement of a certain program being offered at the School. When you consider where your charitable donations are to be given this year, why not send a cheque to St. Michael's College School?

Tax receipts will be issued for any donation over $25.00.

I would like to make a donation to the St. Michael's Alumni Scholarship and Bursary Plans.
Enclosed please find my cheque for $_____. Please mail my charitable donation receipt to:

THE SCHOOL TIE IS BACK

After an absence of five or six years, Father William O'Brien has brought back our School Tie in an effort to raise some much needed funds for the Alumni Association. Father O'Brien has placed a large order and would like to get rid of them before Christmas. The cost of these "Ties" is $25.00 each or $40.00 for two, which will include the cost of mailing the tie(s) to you.
Order now before they are all gone. Be a proud St. Michael's College School Alumnus, wear your old school tie to work at least once a week. To order your tie today, please fill in the following coupon:

To: S.M.C.S. School Tie
C/O Rev. Wm. O'Brien
St. Michael's College School
1515 Bathurst St.
Toronto, Ont. M5P 3H4

Please mail me ____ S.M.C.S. School Tie(s) @ $25.00 (2 for $40)each. I enclose my cheque in the amount of $_____.

A SPECIAL NOTICE TO ALL ALUMNI MEMBERS...

In Memoriam cards are now available at the school and at most Metropolitan Toronto and surrounding area funeral homes.

The Building Fund Committee has supplied most local funeral homes with In Memoriam cards and envelopes. Should you have a requirement for such a sympathy card, please feel free to call the school or ask at the funeral home of your deceased loved one.

All donations will be acknowledged with an income tax receipt for the donor and a card, if needed, will be sent to the bereaved family. We will also place the name of the deceased on our permanent donor plaque if total donations for a particular person exceed the $1500 plateau.

This Fundraising project for the Building Fund is of great importance to our overall success. We sincerely hope every Alumni member will consider it at the appropriate time. We feel it is one of the easy, painless ways people can help out and it is greatly appreciated by the surviving families.

The Building Fund Committee would also like to thank the funeral home owners, their directors and staff for their cooperation in this worthwhile endeavour. We would also like to thank Mrs. Joan DiGiulio, widow of Rocco L. (Class of '62) for serving as Chairman of the Committee. If you require any other information, please call the school.

Michael E. Duffy, President
SMCS Building Fund

IN GRATITUDE TO FATHER ARTHUR HOLMES

Father Arthur Holmes

Fr. Art Holmes died unexpectedly last last July 12th while visiting Syracuse, New York to scout minor baseball. Fr. Art loved Baseball. He maintained a detailed book of player and game statistics. That was an integral part of his enjoyment of the game.

A concelebrated Mass was offered by the Basilian Community in Holy Rosary Church the morning of July 16th. Fr. Robert Holmes, a brother, was the main celebrant and delivered the homily. Fr. Holmes' remains were buried that afternoon in Holy Cross Cemetery, Richmond Hill.

FATHER ARTHUR HOLMES

Born: Toronto, June 5th, 1930
Attended St. Michael's College School, 1943 - 1948
Entered Basilian Noviciate, August 1950
Ordained to Priesthood, June 29th, 1957
Teaching career: St. Michael's College School - 1954-55, 1958-65 and 1978-94. St Charles, Sudbury, 1965-76

Fr. Holmes was a loyal man; he was loyal to his friends, to his religious community, to his church, to St. Michael's. The obligations he undertook when he became a Basilian, a priest and a teacher were fulfilled with meticulous care. He was available to his neighbour; he organized his time for prayer; he was current in Theology; his classes were prepared to reach every student.

He was known affectionately as Mr. Mathematics (or the Math Doctor) by his students. Never one to waste time nor to interfere with student learning, he taught the lesson in the first fifteen minutes of class then left his pupils to work under his care. Fr. Art cared for those he taught.

Father had many years as a player and successful coach of football and hockey. His size and weight were always more than compensated for by his spirit, toughness and agility.

St. Michael's owes a debt of loyalty to Father Holmes. He gave his life to the interests of this school community. We will remember him as a great teacher, coach and friend. Let us not forget to pray for his intentions.

If you wish to make a donation to our Building Fund in memory of Father Arthur Holmes, in memoriam cards are available at the school.

REMEMBRANCE DAY 1994

All Alumnus and their families are cordially invited to take part in a special ceremony to take place at St. Michael's College School at 11:00 A.M. on November 11th, 1994 to commemorate those 119 colleagues of St. Michael's College School who gave their lives in past wars. A wreath to these men will be presented on behalf of the members of the Alumni Association by Fr. William O'Brien, C.S.B. and John Bonvivere, President. This ceremony should last about 30 minutes. Why not attend?

MEMORIAL MASS - NOV. 14TH, 1994

A memorial Mass for Rocco L. Di Giulio (62) will be celebrated by Father Thomas F. Mohan, C.S.B. in the school Chapel at 7:30 P.M. on Monday, November 14th, 1994 for his family and friends. All alumni are welcome to attend. If you wish to make a donation to our Building Fund in memory of Rocco, In Memoriam Cards are available at the school.

THE BASILIANS IN COLOMBIA

Alumni members may or may not be aware of the work of the Basilian Fathers in Colombia. In spite of the dangerous atmosphere and the political unrest of that country, the work of the Basilians in the city of Cali is flourishing. So reports Father Wally Platt, C.S.B. (Class of '42), a member of the Basilian Mission in Colombia and briefly in Toronto where he attended the 50th Anniversary celebration for Fathers Bud Cullen, Don McNeil and Steve O'Neill held at St. Mike's.

The mission of the Basilians in Colombia consists of a parish of some 40,000 persons, ranging from the destitutely poor to families of modest means. It sponsors a clinic for the poor, built with gifts of generous persons in the North. There is an old-folks home, financed and run by the Sisters of Mother Teresa of Calcutta. And now, for the past two years, there has been a school for the poor children of the parish run by the Basilians.

The school began in 1992 with the six primary grades of the Colombian system. Each year a grade of secondary school is added. The gammit of grades will be completed in 1998, if all goes well.

Though the Basilians teach very little in the school, they are overseers of the project and hope to infuse the school with the best Basilian traditions of education. "It is Christ-centred" says Father Platt, "and the standards are high. The poor will have the best we can give academically and spiritually, with God's help."

There are some 15 lay teachers, all Colombians, fine persons dedicated to the ideals of the school. Though the families pay a fee - about five dollars a month per student - this is far from sufficient for meeting expenses of salaries, office, maintenance, and all that goes with running a school. The Basilians have established a fund with donations from friends in Canada and the U.S., the revenue from which it is hoped, will make up the short-fall.

The atmosphere in Colombia continues to be violent and dangerous. Also, the prevailing poverty makes life difficult for many. But the Colombian people are hospitable, friendly and grateful. There is great appreciation on their part for the work of the Basilians. And there is equally great appreciation of them on the part of the Basilians: they teach us a great deal about life, about coping and about the presence of God in our lives. In Latin America, God is a fact.

FROM THE DEPTHS OF OUR ARCHIVES

Archives! Our school has an archives, for those of us who didn't know.

Archives: anything pertaining to the beginning of an institution... from the Greek "arche", of course. For the sense of the word, see Genesis, I,l,: "In the Beginning..."

And high time we had an archives, considering the irreplaceable memorabilia that goes to dumpster-city for lack of a secure final place of rest.

You'd be surprised at the need that folks have here and now for our archives. Editors of the student newspaper, the alumni organization frequently pound on the portals of the archives. Matter of course...

But figure the lady who, several Christmases ago, worked up a special "This is your life" composite photo-montage for her husband, he is an alumnus of ours. She 'phones Jack Fenn: Any way possible to find a picture of my man when he scored the winning touchdown back in the '50's? Said Mr. Fenn assured her that she would have the pic in time for Christmas...then dropped the task on the Archives...Bingo!

Or figure the lady who asked us for a bit of research: did her ever-distant uncle really go to St. Michael's back in the 19th century.

No problem: Archives found out that the lady was indeed the great-grand-niece of the late Archbishop Fergus McEvay! We even found out his marks in Latin, Maths and Science, Grade XI... but, of course, did not divulge them. School records of this nature are classified, and kept in a large safe behind locked doors.

Our Archives began with a request from Fr. Fitzpatrick that the hockey scrap-books so carefully maintained for years by the late Fr. Ted Flanagan (and found among his personal effects after his death) be secured for posterity. Fr. Volpe liberated a room (#238) in the Priest's Residence. And lo! the Archives has been in business since around 1985.

Our oldest records are in the form of large bank-style ledgers logging student marks and beginning in 1885. And of equal value is our collection of year-books dating from 1911.

That's all re: Archives for the time being, so we'll wind this article up with a bit of sports trivia, to wit:

In what sport did the students of St. Michael's down at Clover Hill become known as the "Fighting Irish"?

Nope, neither hockey nor football. Cricket! Yep... and if you want the full story, ask our archivist, **Fr. Bill O'Brien**

A CLASS ACT REPEATED

The Class of '42 held its Second Annual Luncheon on Tuesday, July 19th at Thornhill Country Club.

In attendance were:

Tony Amodeo	Don Finley
Tom Byrne	Wally Finley
Len Casciato	Fr. Gerry Gregoire
Fr. Tom Cullen	Steve Haydes
John Devaney	Norm Lingeman
Paul Duggan	Hub Teolis

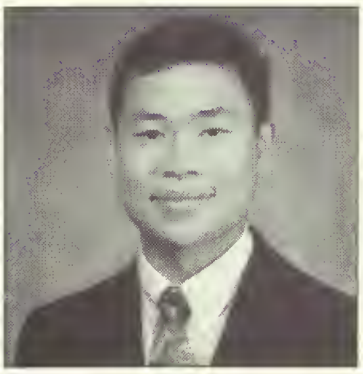
Burke Seitz dropped in for a few minutes but could not stay because of a previous appointment.

From the time the bar opened at 11:45, right through the delicious lunch until final departure at 3:30, we reminisced, laughed a lot and talked about what we had been doing since 1942. A great time was had by all. It was unanimously decided by those who attended, that our Third Annual Luncheon for the Class of '42 will take place on Wednesday, September 27th, 1995. Time and place to be announced.

If you missed this year, don't let it happen again. We had an enjoyable time. Mark your calender now as a MAJOR event for 1995. We will be looking for you.

A sad note... A few weeks after our luncheon, Fr. Tom Cullen died from a prolonged heart problem. A number of classmates represented the Class of '42 at the funeral. Rest in Peace Fr. Tom.

THE HEART & STROKE FOUNDATION OF ONTARIO MARTIN L. WILLS SCHOOL STUDENT SCHOLARSHIP



In memory of Martin L. Wills, a former President of the Heart and Stroke Foundation of Ontario, who served eleven years as a Director and was president from 1961 to 1964, the Board of Directors has established scholarships to allow Ontario High School students to spend a summer in cardiovascular and/or cerebrovascular research. Up to fifteen scholarships will be provided in Ontario to introduce high school students to the field of medical research during the summer months. The scholarships are valued at $2,000 for a period of two (2) months. The student applicant must find a research scientist who will agree to undertake the supervision of the student for the duration of the two months. A statement by the supervisor about the research project for which the student will be employed is also necessary. In addition, a brief essay from the student outlining his/her past experience in summer employment, his/her objectives in applying for a summer research scholarship and his/her plans for future education after the summer must be included in the application. At the completion of the scholarship, it is requested that the candidate forward a written report to the Heart and Stroke Foundation of Ontario.

This summer was certainly a very fruitful learning experience for myself. Dr. Michael Freeman and his assistants, Mr. Terry Hsia and Miss Joanna Sloninko, have thoroughly exposed me to their projects through the **Martin L. Wills Student Scholarship.** This exposure ranged from the contact with patients to the actual analysis of the nuclear medical studies on the computer.

The St. Michael's Hospital Nuclear Cardiology Laboratory gave me the opportunity to observe three major projects. They are the following: **A Non-invasive Assessment of Viable Myocardium Post Thrombolytic Therapy for Acute Myocardial Infraction. A Non-invasive Assessment of Viable Myocardium and Improvement of Ventricular Function Following Percutaneous Transluminal Coronary Angioplasty** and a high cholesterol study. The first two projects are comparing the level of accuracy in diagnosing heart complications between non-invasive nuclear imaging tests and the invasive procedures of catheterization. It is important to note that catheterization is the standard by which all other heart diagnostic tests are measured.

The analysis of the patient's heart on the computer through the use of gamma cameras has moreover enabled me to observe the different methods of studying heart function. "Polar Maps" are employed to depict the three-dimensional left ventricle of the heart on a two-demential plane. Topographic "Slices" of the left ventricle essentially consist of images of the heart at different depth levels. All these methods of viewing the heart allows the nuclear medicine physician to determine if the patient has had damage to the heart muscle. Areas of the heart with poor blood flow during stress can also be identified at this time. A third method of studying the health of the heart is by calculating the blood ejection fraction of the left ventricle. This permits the physician to fully understand the pumping action of the patient's heart.

Although the bulk of my time was spent in the research laboratory, there was tremendous pleasure in exploring other parts of the hospital. The diagnostic tests were reported every morning by the medical residents., Dr. Freeman and Dr. Greyson, the Chief of Nuclear Medicine and Diagnostic Imaging. The clinical expertise of these physicians filled me with amazement at each reporting session. The simplicity and the complexity of the catheterization procedures simultaneously awed me as well. I was given the chance to observe mitral valvuloplasty, angiograms and angioplasty at the catheterization laboratory. While the procedures were being performed, live pictures of the heart were also taken. This resulted in my significantly increased understanding of the heart's anatomy. Furthermore, I was invited into the Intensive Care Unit to observe pericardiocentesis. This is the procedure whereby excess fluid surrounding the heart is drained with the insertion of a long needle through the chest wall. Dog and rabbit experiments were also shown to me in the Research Vivarium.

The pinnacle of my explorative activity took place in the Operating Room. It was there that I had the honour to see Dr. James K. Yao perform double bypass surgery. Dr. Yao is responsible for the first open heart operation in Canada. I was most impressed by the skill and the finesse of the entire surgical team in carrying out the successful operation.

The practical experience I have gained through this scholarship are enormous. I have, however, benefited more importantly from the insights and the talents of the health care professionals. Although I always found wonder at the skill of these technologists, nurses and physicians, I was more amazed by their supreme ability to communicate with patients. I believe that my interpersonal skills have been enhanced by their ongoing example.

This scholarship has indeed been an enlightening opportunity. My appreciation extends to Dr. Michael Freeman. His kindness and generosity in the imparting of knowledge has been great. I would also like to thank Miss Evelyn T. McGloin and the Heart and Stroke Foundation of Ontario for their confidence in selecting me as a recipient of this scholarship. In short, this summer experience has confirmed my ardent desire to serve the community through the medical field. I will try my very best to accomplish this dream!

ANTHONY MARCHIE, SMCS OAC STUDENT

ST.MICHAEL'S C

"THE BUILDING FUND" A NEW C

Dear fellow Alumnus:

A warm welcome to the Alumni who have asked for information concerning **The Building Fund.** This letter will give you the information you requested. I ask the indulgence of those who received the first letter as I repeat some of the background and the importance of **The Building Fund.**

The last section of this letter will be a progress report on the building renovations done during the summer.

THE BUILDING FUND - BACKGROUND INFORMATION

St. Michael's College School is preparing to enter the twenty-first century.

Our school has served youth since 1852. Through attendance at St. Mike's, young men have been prepared to take their place in society and to lead successful personal and business lives. St. Mike's must continue its good work for youth in facilities which match if not rival those of other private schools.

It has been forty-four years since the first class was held in the new school at Bathurst and St. Clair. That 1950 building was modern and did accommodate the programs and students who came seeking education. That same building must now be renovated to meet the modern building codes and to house modern programs of study.

The Alumni Association is inviting you to assist with the renovation and building which must be undertaken to accommodate new academic programs and to renovate sections of the school. This entire program will cost **12 million dollars.**

I am sure that such a huge sum of money must cause you to pause and wonder if it is possible, especially when the country has gone through such difficult economic times. Be assured, if each alumnus in our records were to raise or donate $2,500 we would have sufficient funds to proceed with the renovation of the school building and the arena.

Obviously, many cannot donate such a sum from their earnings. Regardless, each can donate time and/or money over the next five years. The contribution of each alumnus is important to the renewal of St. Michael's.

The funds required will come from those of modest means, those who can afford larger sums, and from corporations and foundations who want to participate in this venture. the main point is that it can happen and that all of us must participate.

We have profited from our St. Michael's years. This is our opportunity to do for others what was done for us. Every alumnus and friend of St. Michael's will be to assist the school in its renewal.

THE RENEWAL HAS STARTED:

You that have started your contributions to **The Building Fund** should know that we have invested the money into immediate needs for renovation:

- repairs to the concrete and brick of the building was addressed. Brick was pointed and concrete was repaired and sealed against further deterioration.
- for the safety of the public and our students, the sidewalks and outside stairs were replaced.
- it is an amazing fact that student movement within the building had worn the terrazzo stairs and floors right down to the concrete. These worn areas have been replaced.
- in order to promote fitness among all students, a room to house weight training equipment was built in the dressing room area near the gymnasium. This room will help us accomplish our fitness objectives for every student.
- the running track and the stadium seating had deteriorated to the state that it was necessary to make repairs prior to another season. The football field, track and stadium are used extensively.I had to make sure that they were safe for student use.
- the gymnasium floor is in need of repair. I have the assurance of our engineers that it can be used for another year. Next summer, the floor will have to be replaced.
- the school needed new computers in order to teach new courses. The Parents' Guild and the Alumni have undertaken the $95,000 cost of this project. The computers have been installed and the students are using them for their courses.

Please visit the school and see what your contributions have accomplished. The building has taken on a fresh look.

St. Michael's will enter the next century with its principles and high academic expectations of students. New programs will reflect the proven traditions of this school and will provide for the needs of students.

St. Michael's is **OUR** school. Let **US** share its virtue with the next generation of students.

The staff and students are deeply grateful for the loyalty and generosity of the Alumni and The Parents' Guild.

Be assured, the Basilian Fathers are grateful for your collaboration in the future of St. Michael's. The school will be renovated and will take its place in the twenty-first century.

You are remembered in the prayers of the community.

In Christ,

Fr. T.F. Mohan C.S.B. Principal

LLEGE SCHOOL
NTURY! A RENEWED ST. MIKE'S

The following is a list of those alumni members and/or friends of St. Michael's who have already made their pledge towards the Renewal of St. Mike's and the success of our Building Fund Campaign:

Amendola, Joseph
Amodeo, Anthony J.
Angotti, Louis F.
Annibale, Jason
Antenore, Robert A.
Ardito, Eugenio
Armone, Joseph

SCHOLARSHIPS AND AWARDS - 1993-94

The ninety-four, ninety-five school year has begun. We would be remiss if we did not look back at 93-94 and celebrate the accomplishments of our students. Overall, the school did well. There are some who can be selected for special honour because they were the top students in their class

Grade 9	Johnathun Hyun	- 93.0%	Grade 11	James Ko	- 95.1%
	Michael Varona	- 90.3%		Patrick Simon	- 94.0%
	Sebastian Koper	- 90.0%		Wojciech Nowack	- 91.9%
Grade 10	Claudio Aragon	- 96.3%	Grade 12	David Veneziano	- 96.4%
	Stephen Choi	- 92.9%		Anthony Marchie	- 93.8%
	Mark Venditti	- 92.9%		Chris Tanzola	- 93.1%

A large number of O.A.C. (Grade XIII) students distinguished themselves. 73 students achieved averages of 80% or more in six grade 13 subjects. 31 of these students received the Thomas More Society award. That is, they carried an "A" average throughout high school.

As part of the graduation ceremonies, awards are presented to students who have made an outstanding contribution by combining academics and extra curricular activities well during their years at St. Michael's. In this area, the following were awarded:

The ODETTE AWARDS
- Dilip Andrade, Marco D'Ercol, Gary Doyle, Dennis Favret.

THE OLD BOYS' AWARDS
- Michael Lee-Poy, Daniele Libertucci, Michael Marley, John Sinopolis, Peter Steponaitis, Nicholas Vozoris.

The Norman Dilella Memorial Trophy for debate and public speaking - **Dilip Andrade**
The Oakland Youth Organization Scholarship for excellence in music - **Mark Rebello**
The Father Patrick Fogarty Catholic Student Award - **Michael Rombeiro**
The Father Frank McCabe Humanitarian Award to the student who reflects the humanitarian qualities of Father Frank McCabe.X - **Nick Izzo**
The Spiritus Trophy to the student who embodies the spirit of St. Michael's. - **Dennis Favret**
The University of Toronto National Scholarship Award Nominee. The National Book Award is presented to the student chosen by St. Michael's to enter the National Scholarship competition - **Michael Lee-Poy**
The Brian Dunn Memorial Award for General Proficiency. To the graduate with the highest average in grade13. - **Patrick Douglas**
The Governor General's Medal to the student who has the higest average in grade 13. - **Patrick Douglas**
The Robert Buckley Memorial Scholarship for outstanding contribution to the Arts. - **William Tajer**
The St. Michael's College school Teachers' Association Social Justice Bursary. To the student who best exemplifies the Christian ideal of service to the needy. - **Steve Succi**

In the next issue of the Blue Banner, look for a summary of university entrance awards and scholarships earned by St. Michael's Students and the St. Michael's medal recipients.

REACH FOR THE TOP

L to R: Norm Freeman, Dilip Andrade, Nick Uczoris, Bruno Bratti

a) Who is the sycophantic clerk in Dickens' David Copperfield?
b) What is the capital city of the Pakistani province of Baluchistan?
c) In what year did Alberta become a province of Canada?
d) How long does it take sunlight to reach earth?

The St. Michael's College School 1993-94 Reach for the Top senior team answered these questions correctly. In fact they answered so many questions correctly that they won the Toronto Championship. Their 18-1 record took them to London, Ontario for the Ontario playdowns at the University of Western Ontario. After surviving the preliminary round, they met Bell High from Nepan (Ottawa) in the televised quarter-final round. In a match that could have gone either way, they lost by five questions to the team that went on to win the Ontario and then the Canadian Championship. It was the best performance ever by a St. Mike's team, and by a Toronto Champion. St Michael's Junior team also won the Toronto Championship.

1993-94 was a banner year for the Blue Lights.

ALUMNI GOLF 1994

Another beautiful day and a tremendous turnout signalled the 18th Annual St. Michael's Annual Alumni Golf Tournament this past June 21st, 1994 at Glen Eagle Golf Club in Bolton. A total of 133 golfers teed off under the scramble formula we began the previous year. Everyone had a lot of fun and there was even some great golf. The eventual winning team was made up of the foursome of Paul McCann, Peter McCann, Michael Coghlan and Charlie Lewis (all teachers at the school). A happy hour preceded a wonderful Steak Dinner followed by the presentation of prizes to all those in attendance. Look for the announcement of our 19th Annual Tournament to be held on Tuesday, June 20th, 1995 in our Spring edition of the Blue Banner.

We would like to especially thank those Alumnus who sponsored a Golf Hole at this year's tournament. Unfortunately there were a few sponsor signs that were not displayed on the course this year and we apologize for this error. In particular we neglected to post a sign for Len Sanci and his Oak Land Lincoln Mercury dealership in Oakville and a sign for Frank Morneau and W.F. Morneau & Associates both of whom have been long time sponsors of our golf tournaments.

ATHLETIC AWARDS 1994

A packed gymnasium was on hand last May for the Annual St. Michael's Athletic Awards Banquet. This is the night when the many long hours of practice and hard fought battles are finally recognized by the coaches, peers and administration of the school.

This past year, like so many in our illustrious past, produced many fine young athletes. All students who participated in the various sports offered at St. Michael's were winners in their own right even if they didn't win a championship or an individual award. Their participation was part of their growth as a "St. Mike's man".

Throughout the evening, many distinguished awards were presented to deserving athletes:

The Enzo Montemmuro Trophy presented to the athlete who best combines school spirit and athletics went to **Kerry Jackson** [Football and Hockey].

The Father Mallon Trophy presented to the athlete who best combines academics and athletics went to **Paulo Frescura** [Cross Country & Track].

The John Drohan Trophy presented to the Athlete of the Year went to **Sean Musselman**.

The History/Athletics Award went to **Angelo Capra.**

The Dobie Award (Manager of the Year) went to **Avrahm Reindorf.**

The Coach of the Year was awarded to **Frank Trentadue**. [Football, Hockey & Soccer].

The Father Mulcahy Trophy to the Junior Athlete who best combines sportsmanship and athletics went to **Sam Dorri** [Cross Country & Track].

The Jack Fenn Trophy to the Junior Athlete who best combines academics and athletics went to **Reilly Musselman** [Basketball & Volleyball].

The Paul Dignan Trophy for the Junior Athlete of the Year went to **Ryan Williams**.

Several graduating athletes were awarded scholarships to further their education and develop their athletic skills:

Paulo Frescura - Cross Country/Track to the University of Pennsylvania
John DiRenzo - Jr. "A" Hockey Buzzers to Yale University
Matt Thomas - Jr. "A" Hockey Buzzers to Rochester Institute of Technology
Andy Sutton - Jr. "A" Hockey Buzzers to Michigan Tech

1943-45 GOLDEN GRADS REUNION

During the weekend of October 28th and 29th the Golden Grads of 1943 through 1945 gathered at St. Michael's College School to celebrate 50 years since they had the graduated from the hallowed halls of "Clover Hill." The reunion committee, headed by Don Goudy (43), held about 16 meetings over the past year in preparation of this great event.

Their efforts were truly rewarded when 165 persons attended the reception and dinner in the school Cafeteria Friday evening. Many old tales were retold of the days at Clover Hill and many old friendships rekindled. A packed chapel of in excess of 100 people participated in a Mass at 11:00 A.M. on Saturday morning followed by a Champagne Brunch in the Cafeteria. Fr. Thomas F. Mohan C.S.B., Principal of the school spoke of the changes at St. Michael's and the challenges that lie ahead to bring St. Michael's into the next century as "the Jewel of Catholic Education in Ontario." Michael Duffy, President of the Building Fund spoke of the importance of all alumni to become partners in the renewal and renovation of St. Michael's.

We extend our appreciation to Don Goudy and his enthusiastic committee for all their efforts at making this past weekend a truly great success. We hope that Don and his crew will have a few pictures for our next issue.

BUZZERS IN THE 1994 NHL DRAFT

Brett Lindros (91-92) was chosen in the first round, 9th overall, by the New York Islanders where he signed a multi year deal.

Craig Mills (92-93) was Winnipeg's 5th choice, 108th overall. (Craig's father, Dennis (66) is presently the Federal M.P. for Broadview/Greenwood). Craig has returned to the Belleville Bulls.

Kam White (92-93) was Toronto's 5th choice, 152nd overall.

KERRY BLUE REUNION-JUNE1994

In June 1994 the Senior Kerry Blues held a reunion in the Alumni Room. More than 60, still very fit, veterans dropped in to renew old acquaintances. It was a great opportunity to visit with old teammates and former coaches. Everyone seemed to enjoy watching old game films which had been edited by former kerry Blue quarterback, Francis Greco (88). When Francis himself wasn't dominating the screen we all got an opportunity to watch Brian (O.J.) Jarvis (80) run over the entire Central Tech team and Peter Douglas' 60 yard winning touchdown run in the first ever Metro Bowl game in 1982.

It was great to have Jack Fenn and Hugh McDougall join us. As former Vice-Principals at St. Mike's they had the real inside story on what some of the players were really like during their Kerry Blue years.

A big thank you goes out to Mike Zahra, John Walsh, Frank Trentadue and Francis Greco for organizing the reunion and we hope to do it again at some future date. Your comments and suggestions are always welcome. Call Paul Forbes at 653-3180.

KERRY BLUES 1994

This year the Kerry Blues have been severely struck by the injury bug. There are a number of veteran players who have yet to put on equipment due to physical problems they developed during the summer. All of this, combined with an all rookie offensive backfield, have led to an unusually slow start for the team.

The Kerry Blues were beaten in a pre-season game with Sarnia St. Pat's, and have begun the regular season with two rather unimpressive wins over Senator O'Connor and Father Redmond. If the injuries heal and the offense gains the experience they need, then the Kerry Blues hope to challenge the top ranked Michael Power Trojans for the TDCAA Championship. On Friday, October 21st, the Kerry Blues met the Trojans at their home field at Centennial Park. When the final whistle blew the Kerry Blues, coming off their most impressive games of the year, had secured a 35 - 14 victory. Now on to the playoffs.

Former Kerry Blue and 1993/94 Athlete of the Year, Sean Musselman is starting in the offensive backfield with St. Francis Xavier University. Mike Marcon, Kerry Blue defensive end (94) is at the University of Western Ontario. Angelo Cabra, defensive tackle (94) and Paul Carrington, rover (94) are playing for the Toronto Varsity Blues

THE 1994 BUZZERS

The potential for a successful 1994-95 season has been put in place with the return of 13 players from last year's team. The club's leading scorer, Bryan Kennedy, along with the likes of D'Arcy O'Shea, Rob Rigg and Mark Szucs will add a great deal of firepower to the squad. Returning defencemen, Stephen Flynn, Rob Koh and Ryan Poulton will add some additional muscle to the blue line and give added protection to returning goaltender Ron Ligas.

The veterans are joined by a promising crop of rookies which include the likes of 6'5", 235 lb. Rob Davidson, Syl Apps, whose father and grandfather had distinguished careers in the NHL; Jamie Evans, a product of the Senior high school team; Justin LeBlanc, a promising forward from last year's Wexford midgets and Mark Will who, along with Syl Apps, played for last year's Provincial High School Champions from Upper Canada College.

The Buzzers will travel to Potsdam, N.Y. late in October to participate in a 12 team tournament being held at Clarkson University featuring some of the top Junior and Prep School teams in Canada and the U.S.A. This will be followed by the Buzzers taking part in the prestigious Capital District Tournament at Union College in late November.

Another feature this year is an exhibition game on **SUNDAY, DECEMBER 18TH, 1994** between the **BUZZERS** and the elite Russian **RED ARMY JUNIOR TEAM** in our arena. This will be Canada vs Russia all over again! You can't miss this one! Be there!

Alumni are always welcome to come out and support the Buzzers. Nick Slawson (67) a former Buzzer and now a member of the team's Board of Directors as well as an Assistant General Manager will be happy to share memories with you. The Buzzers play the majority of their home games (see schedule) on Sunday nights at 7:15 P.M. so come out with your families and enjoy an evening of fine entertainment.

BLUE RAIDER BASKETBALL CAMP NEWS

The annual Blue Raider Basketball Camp for boys of ages 11-14 was once again a success this past July. There was approximately 40 campers spread out over two sessions, one in the morning and one in the afternoon. A number of the boys participating used the camp to get familiar with St. Michael's as they would be attending the school this year.

A special thanks to Fr. Mohan and the Basilians for once again allowing us the use of the gymnasium.

Greg Paolini, Camp Coordinator

WHY HAVE YOU NOT JOINED YOUR ALUMNI ASSOCIATION?

It has been most discouraging for the Executive of the St. Michael's College School Alumni Association to see that only about 350 paid memberships have been received during the past year from a mailing list of over 5,000 Alumni. These funds are necessary to cover any expenses of the Blue Banner, Turkey Roll, etc. In order to carry out the objectives of the Alumni Association and to build the Association into a strong entity within the School organization we require funds which you can contribute through the payment of an Annual Membership Fee.

If for any reason you cannot afford the $25.00 fee then we would request that you sent us $10.00 to help pay for the Blue Banner.

The Executive Council has agreed that those members who pay their Membership Fee of $25.00 will be entitled to receive a copy of their Class List (if they so request). This list will only be permitted to be used to contact your classmates to renew your friendships established while at St. Michael's and not for any solicitation purposes.

Please fill in the following form and return it as soon as possible along with your cheque for $25.00:

The Building Fund

A New Century! A Renewed St. Mike's!

Call 416-653-GIVE

ANNUAL REUNION AND TURKEY ROLL FRIDAY, DECEMBER 2ND, 1994 8:00 P.M. IN SCHOOL GYMNASIUM

It is time to get on the telephone and call a few of your former classmates and arrange to spend a few hours together in the hallowed halls of St. Mike's on Friday, December 2nd,1994. That is when this year's Turkey Roll will be held in the school gym. We will have 70 Turkeys that can be won this year plus door prizes, a raffle for a LARGE TURKEY and other prizes, Blackjack and other games of chance. A light lunch and other refreshments will be available during the night. This year we are saluting the grads of 1989, 1984, 1979, 1974, 1969, 1964, 1959, 1954, 1949 and 1944. If you belong to one of these classes why not see which class can bring out the greatest number from their year. Let's make this the best Turkey Roll ever. You can bring your membership fees with you that night and also your pledge for the Building Fund if you have not yet made your commitment. As in the past guests are always welcome at St. Michael's.
